*Hello dear readers,  
This magazine is to remember our memories when we read it. In fact, everyone worked on this magazine. For example, everyone has an article and there are editors and designers. We worked on this magazine and thought about our story together. Today, our unity makes us very happy. Everyone is happy that she was a part of Prep-B class. We also want to thank our teachers. They are very valuable to us. We hope this story never ends.*

# MY LEFT FOOT

## BOOK REVIEW

I WANT TO RECOMMEND TO YOU "MY LEFT FOOT". THE BIGGEST REASON THAT I RECOMMEND THIS BOOK IS ALTHOUGH I DON'T LIKE AUTOBIOGRAPHY BOOKS, I FINISHED THIS BOOK IN 2 DAYS.

THE BOOK WAS WRITTEN BY CHRISTY BROWN. ALSO, HE IS THE MAIN CHARACTER OF THAT BOOK.

THE SUBJECT OF THE BOOK IS THE STORY OF A CHILD WHO WAS BORN WITH CEREBRAL PALSY. AND HIS MOTHER DOES NOT ACCEPT THIS SITUATION AND EDUCATES HER CHILD. THE CHILD CANNOT USE HIS HANDS, BUT ONE DAY HE PICKED UP THE CHALK ON HIS LEFT FOOT AND STARTED DRAWING SOMETHING ON THE FLOOR. HIS MOTHER WAS SHOCKED AND DELIGHTED WHEN HE SAW THIS SITUATION AND THEN TAUGHT HIS CHILD TO WRITE WITH HIS LEFT FOOT.

I'M GOING TO TALK ABOUT THE CHARACTERS, THE MAIN CHARACTER OF THE STORY, CHRISTY. CHRISTY COULDN'T MOVE HIS BODY EXCEPT FOR THE TOES OF HER LEFT FOOT. AND CHRISTY'S MOM MRS. BROWN WAS THE PERSON WHO LOVES CHRISTY THE MOST. SHE CARED SO MUCH FOR HER SON AND HE WORKED HARD FOR HIM. THEN CHRISTY'S DAD MR. BROWN IS A BUSY PERSON WHO IS ENGAGED IN MASONRY. TONY AND MONA ARE CHRISTY'S SIBLINGS. TONY IS THE MOST MISCHIEVOUS CHILD IN THE FAMILY. HE IS VERY HYPERACTIVE. AND KATRIANA ALWAYS HELPS CHRISTY. SHE IS A VERY BEAUTIFUL GIRL. JENNY IS CHRISTY'S CHILDHOOD SWEETHEART. AND DR. WARNANTS IS CHRISTY'S DOCTOR. HE TRIED HARD TO HEAL CHRISTY.

FINALLY, I REALLY LOVED THIS BOOK. IT SHOWED ME THAT THERE IS NO SUCH THING AS IMPOSSIBLE. I REALIZED THAT IF WE TRY HARDER, WE CAN ACHIEVE ANYTHING. AND THAT'S WHY I RECOMMEND YOU THIS BOOK, YOU SHOULD DEFINITELY READ IT.

ELIF BÜŞRA KAÇAR

# CHRISTY BROWN

## MY FAVORITE RELATIVE

My favorite relative is my mom. She is thirty-nine years old. She lives in Edirne.

Her name is Haticce. She is medium-high with short, wavy, dark hair. She has beautiful eyes and a lovely smile. She always looks beautiful but when she gets up early, she looks like a monster. She always wears long black clothes.

She is very kind, clever and generous. Also, she is brave. So, she is a very special person for me. She is a housewife. Usually, she doesn't have free time. So, when she has free time, she rests or drinks tea. When we are together, we talk about my lessons, drink tea or do shopping.<sup>29</sup>

I love my mom because she is like a best friend for me. She loves me very much and I love her too. We spend a lot of time together. She always helps me when I have a problem.

# GLOBAL WARMING

We have just one Earth and it dies every day and if we still don't do anything for it, it will continue to die and one day everything will disappear. That is the reason why I wanted to talk about it. Everyone is responsible for saving the Earth so they must change their lifestyle. If you still don't do anything about saving the Earth, I hope you change your lifeway after these videos and my presentation.

The first video was about the greenhouse effects and the second one was about general information about climate change.

The Earth has a suitable temperature for people, animals, and plants to live. The sun sends heat and light to our planet. Some of the heat goes back into space and some are trapped by the gasses are called greenhouse gasses but if greenhouse gasses increase. The Earth's heat balance changes and the Earth gets hotter and hotter but the hot climate is not suitable for living things to live. In sum, greenhouse gasses are important for living things because they keep the Earth warm but when they increase, they become so dangerous for us.

Let's look at the result of climate change in our day. The global temperature increased by almost 2 degrees Fahrenheit. Even though we would say it is not much, the glaciers are melting and because of that most animal species are becoming extinct. Natural disasters are increasing and some people are dying because of drought.

We would say stop that and we should do something. As you know climate change is because of some human activities such as burning fossil fuels and cutting trees so if we use renewable energy, stop cutting trees and inform people, we can avoid climate change. Don't forget "living things in big trouble."

Dilara Demirel

# ROBOT NEWS

## PEPER SU

Students and teachers rolled up their sleeves. They blazed a trail for children with hearing impairment and autism.

The audiology robot is Peper Su as children say. For the first time in Turkey and it will be used in the diagnosis and treatment of hearing-impaired children in the world. Peper Su who can understand the emotions of children with autism, can inform them when children are sad, stressed, or happy.

The software developed by ITU on robots currently only can understand the emotions of hearing-impaired children. Studies have also started for children with autism

Child robot Peper Su will be used for children with autism in September.

Esma Alp

# THE ADVENTURE OF TINTIN

THE SECRET OF THE UNICORN

The adventure of Tintin was released in 2011. The genre of the movie is animation, adventure, action, and mystery. The director of the film is Steven Spielberg. The characters in the movie are Tintin, Captain Sullenberger, Red Rackham, Snowy, Detectives Thomas, and Thompson. Tintin is a journalist. He is a researcher, curious, intelligent, and realistic. Snowy is the dog of Tintin. It helps Tintin and never leaves him. It is a smart dog. Captain Haddock was weak and alcoholic at first but then he became a brave and respectful man. Red Rackham is the bad guy in the movie. He is the man who attacked the unicorn horse ship. Detectives Thomas and Thompson are two clumsy detectives. They are also very similar to each other and even the same phrases differently. [mk1] So, they are funny.

While on a trip, Tintin and his dog Snowy find a model ship and buy it. However, this ship is not as ordinary as they think. As the ship arrives at Tintin's house, a lot of bad guys begin to appear around them. These bad guys are after a note inside the ship, not the ship. Tintin is too determined to unravel the secret of the ship and what the ship brings.

I recommend this movie to everyone because it is adventure, action and trying to solve a mystery is exciting. Also, it is funny. You will have a lot of fun while watching this movie.

Fatma Zehra Çakır

# A LONELY DAY AT HOME

Once upon a time, Kylie and her family lived in the USA. Kylie had a dog. Her dog's name was Sky. Kylie and her family went to Los Angeles for holiday. They left Kylie's dog at home alone because it was forbidden to take it on a plane. Kylie was so upset on the vacation because she did not want to leave her dog at home. Kylie stuffed her dog's food and left the house. Her dog Sky was also very upset.

After leaving the house, a thief broke into Kylie's house. Sky was sleeping when the thief entered the house. Sky woke up because the thief was making noise. Sky started barking at the thief. The thief took Kylie's favorite and very expensive necklace and Sky's silver-plated collar. Sky started to bark more. Kylie's neighbours came out their doors. One question on everyone's mind: Why is this dog barking so much?

A Neighbour had Kylie's family's house's key and that neighbour called the family and took permission to enter the house. The family gave permission but they were worried too, especially about Kylie's dog. When the neighbours entered the house. They saw the thief and immediately called the police. Then, Kylie and her family came back home from vacation. When Kylie entered the house, she immediately hugged her dog and decided not to leave it again.

NISANUR KOÇ

# UGLY GIANT PRINCE

Once upon a time, in a magnificent kingdom, a handsome prince loved a witch. He wanted to marry her and told the king and queen about her. Of course, they opposed it. They told the prince that he's royal and he should marry a royal like him. Besides, they said if he married her, he wouldn't be king. That's why the prince left the witch he loved. The witch found out and became very upset and angry and she cursed the prince's first child badly and said:

*-This heartless prince's first child will be a hideous giant and won't turn into a human until he finds true love.*

Years passed the prince married the beautiful young princess and became a king. Then they had a child. It was quite ugly, like in the curse, and the baby was bigger than the other babies. It wasn't normal. And the queen learned everything. As he grew older, he became uglier. And the queen always hid him. She was afraid that the public would behave badly to him. In the huge castle, the prince had only one fairy friend. She would tell him about what happened in the kingdom and leave. Actually, she wasn't like a friend, she was like a maid.

The giant prince was 20 years old. The king was old and tired. It was his son's turn to be king. For this, all young girls were asked to marry the prince. Princesses came to the kingdom in luxurious carriage and ceremonies from nearby kingdoms, but after seeing the prince, they ran away screamingly. Any of them liked him. Actually, they couldn't look at him. That's why the king and queen tried to break the curse. Many wizards came, but no one could break the curse. The giant prince was bored and tired of all these unnecessary efforts. He didn't want to see another wizard and another girl anymore. He wanted to stay on his own. And one day he cried.

*-I love myself. I don't need to break this curse. I just need my parents to accept me as I'm.*

At that moment the prince fell to the ground and fainted. When he woke up, he wasn't a giant anymore. He became a handsome man. From that day on, he learned that appearance doesn't matter. He married a peasant daughter and lived happily ever after.

# The Koala

One day, a truck was transporting koalas from Australia that were going to the zoo. There were two people in the truck. They were using the truck in turn. These men stopped on the side of the main road in the middle of the woodland. They ran out of fuel. They got out of the car to fill fuel. They had stored. And, at that time, they opened the back of the truck because the fuel canisters were there. They turned it on, but they forgot to turn off it while they were filling the fuel because they had a bad memory of goldfish. And a koala's cage remained open. A koala got out of there and ran away. The road was already thought the forest. Koala also easily slipped into the forest. It was very hungry because it moved more than usual. There were no leaves in its cage anymore. And there were no familiar trees to climb in the forest, eating a little and sleeping a lot. Lucky, it found a willow tree. The leaves of the tree were very bushy. It was reaching to the floor. Koala wanted to try the leaves of this tree too. And went into the tree. The inside of the tree was dark and wide. But it was also hot. It was like a cave. And like a dream. It was a very good place to sleep. There were many branches to hug. The soil was very soft. And it was on the ground. But this time the leaves were fresh. This place was very beautiful. It loved it here. Slept here. woke up. Ate leaves. Slept. woke up. Ate leaves. Slept. Woke up. Ate leaves. And so it stayed there for a long time.

One day, it found something. A plant. Near the roots of the tree. It was a small plant. It was the same size as a leaf. There were lots of such shoots here.

But it was different because it was the same color as a unicorn's horn. It was very nice. It was colorful. Like the rainbow. It was very curious about it. It tasted it. It felt very strange at that moment. It was like other animals. It was full of energy. And it didn't like the bottom of that tree. There was very small. Didn't like it there. It wanted to run, and it ran. It had a lot of fun. Tumbled, ran, walked, explored in the forest. It came out from under that tree after a long time. But then one day, it wanted more. Dug the bottom of the sprout. To find a bigger leaf. But the sprout broke. Koala was very upset. It would try to fly more. It saw a bird, was flying. It wanted to fly but it broke the sprout. It did it involuntarily, but it broke. It waited for days with the energy given by that plant. It waited without eating or sleeping. It eventually ran out of energy. And slept. Ate leaves. Slept. Ate leaves. Slept. Ate leaves. It didn't even have the energy to finally remember. And loved it there. Because, there was very suitable for sleeping.

## VIRTUAL TOUR: SINGAPORE

Hi everyone welcome to my new writing. Today I want to introduce you an invention that is world's the best invention for me. It is called "virtual tour".

As you know, everyone was very bored sitting at home at the time of the virus and this time was much more boring for travelers like me. In this virtual tour, you can sit at your home and visit any country 360 ° on the internet without taking any money out of your pocket.

Today I will tell you about Singapore, where I visited on a virtual tour. Where should we go? What is famous there? What did I like the most? I will explain some questions like. So let's start!

# LION STATUE

First, I will start with a very famous statue. The name of this statue is Merlion. As you can see from the picture, this is a lion-shaped statue. In the centre of Singapore, which is literally Lion City and called the City of Lions by many people, there is a statue in the form of a half lion and half fish. The upper part of this statue is in the form of a lion, worthy of the city, while the lower part is in the shape of a fish as an indicator of the importance given to the sea as an island State. Singapore River's water pours from the mouth of the statue.

When I to went this statue, I saw that it is much bigger than it appears in the photo. Actually, I do not understand anything about such sculptures, but this statue really became a symbol of Singapore. Let's go to the other place.

# MARINA BAY SANDS HOTEL

**It is Marina Bay Sands hotel. In fact, it is not just a hotel, but an entertainment complex, the venue consists of 3 towers, the Sands Sky Park (hiking trails, garden, pool, and observation deck) that connects these towers on the roof, as well as congress and exhibition palaces on the ground, theatre halls, casino, and museum. I could not see them on a virtual tour, but I had heard of this hotel before. Truly an excellent hotel. If you want to go here, you should start saving your money now. Because Singapore is a really expensive country and staying in this hotel is much more expensive.**

# SINGAPOUR FLYER

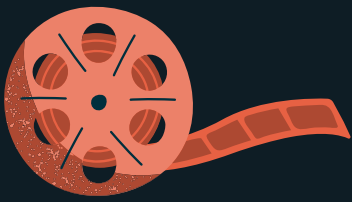

And the last place is Singapore Flyer. Actually, it is a Ferris wheel. This Ferris wheel, built in 2008, was the tallest Ferris wheel in the world until 2014. You can even see Malaysia and Indonesia from the Ferris wheel. The 28 capsule Ferris wheel can carry 28 people in each capsule. The construction of the Singapore Flyer took about two and a half years.

Of course, virtual tours and real tours cannot be the same. But one of the advantages of virtual tours is that you can see everywhere in the country you want to go without paying any money. You can take photos of the places you go on real tours and be in touch with the nature of that country. Unfortunately, we cannot feel these emotions on the internet.

I liked the Singapore Flyer the most. Because I love Ferris wheels and you can see almost everywhere when you get on this Ferris wheel :). But I suggest you check the ticket price before you go. Have a nice journey. See you in my next blog.

*Serra Cepui*

# THE PIANIST

The director of the movie is Roman Polanski. And the lead role of the movie is Wladyslaw Szpilman who is a pianist. The type of movie is a biography, war, and drama. This movie won 3 Oscars and 48 awards.

This movie is about a pianist who is trying to survive the Holocaust. The event is real. Holocaust begins in 1941 and ends in 1945. Pianist Szpilman is also a Jew. He finds a way and runs away from where the Jews were taken and he comes to his friend Dorota. Dorota and her husband help him and they hide him in a flat. Then, his neighbor learns that Szpilman is a Jew and Szpilman runs away and comes to his friend's house. Stays there one night and then lives in another flat. A few years, the Germans drop a bomb on that house. And Szpilman can get out of there. Then, Szpilman hides in one of the destroyed houses. There, German Officer Hosenfeld helps him. And Szpilman survives. German Officer gives him his own coat. When the Holocaust was over, the Polishes came. And Szpilman came out of hiding. They thought he was German because he was wearing a German coat. But later, learned he was Polish. They asked " Why are you wearing a German coat?" and he said, "I'm cold." He was saved now and he continued to play the piano.

And Pianist Szpilman died 88 years old.

I recommend the movie because the event is very well explained and received so many awards.

Yüsra Nur Saraçoğlu

# SPRING

My favorite season is spring. Spring season consists of March, April, and May. In spring, the trees bloom and the weather begins to warm.

I like spring because there are flowers everywhere and I love flowers. Even if it rains sometimes, the weather is very nice in spring. Also, in spring, there are lots of delicious fruits to eat. I decide what I wear according to the weather because the weather is cold, sometimes.

I always have a picnic with my family and my relatives in spring. We used to celebrate "Hıdırellez" with my teachers and my friends in my middle school. We used to have different competitions and we had so much fun.

Finally, the most important reason why I love spring is that I feel people are really happy. This feeling makes me happy, too.

Sümeyye Ağaryılmaz

# SUMMER

My favorite season is summer. It is the third season.

I love summer because schools are on holiday, the weather is warming up. We go on holiday with our family. Sometimes, we go to the village. We visit our grandparents. We have a picnic in the meadow. We watch the butterflies and sky. We roll on the grass.

When we go on holiday, we go to the sea and the pool. We walk on the sand. We sunbathe. The weather gets hot, we wear thin clothes. Most importantly we eat ice cream.

The days get longer, the nights get shorter. We spend our day having fun.

Other seasons are beautiful but summer is my favorite. I love the heat and the sun.

Fatma Betül Celep

## PREVENTIVE TREATMENT WITH OLD METHOD

These days when the coronavirus is at its peak in the world, everyone is looking for ways to treat them. Some professors are working on the vaccine.

However, we saw, the vaccine won't be ready in 2020. Some recommend that people take preventive before they get sick. They say, it is necessary to turn to the field, we call traditional medicine.

Traditional medicine used for centuries and it is not considered scientific today. They said that they aren't scientific methods. They ignored. Interestingly, some of today's modern doctors say that they treat their patients with traditional medicine. They tell this treatment gives results in a shorter time modern methods.

Even in corona, they give patients some natural herbs with ordinary treatment. In the researches, they saw that these studies yielded results. Professor İbrahim Saraçoğlu said in a statement to our newspaper that he was researching preventive treatment against corona. "My advice to doctors: They shouldn't ignore traditional medicine as well as modern medicine."

Ayşe İpek Koşar

# ENGLAND

## Geography:

England is in United Kingdom. Actually, they are not the same. United Kingdom an area in the world and this area has for countries. One of the four counties is England. Also, England is in the west of Europe. So, it is located on Great Britain Island. Also, neighbours of England are Scotland and Wales.

## Languages and Religions:

There are 99.000 people who speak Turkish in England. Also, there are a lot of speakers from other languages. But the official language of England is English. The other topic is about the religion of England. For example, there are 1.591.000 Muslim people there. But %59.5 of the country is Christian. Also, 9.104.000 people have no religion.

## Capital and Population:

Capital of England is London. You know, London is very famous city. But there are a lot of city in England. For example, Manchester, Cambridge, Bristol, Oxford, Norwich, and Derby are also cities in English. There are 8.922 million people in London. So, London is the capital and most popular city of English and United Kingdom. Also, the population of English is 56.290 million people.

## Climate of England:

England is a region characterized by a warm and dry climate in the summer find a cold and dry climate in the winter.

## History of England:

The first known natives of England are Celts. After that the Romans conquered the England. And the history of England started in the first century AD. After 4 hundred years later Romans and Saxons go to the war fifth years of war in the country, William in first continued. In 1558, Elizabeth in first adopted Anglicans as England's official religion and broke Catholic resistance. Elizabeth in first reached great success.

## The Most Famous Places In England:

### -Centerburg Cathedral

It is the most important and the oldest church in England. Although the construction started in 1070, the construction process could only be completed in 1503.

### -Tower Bridge

It is opened for transportation in 1894. It took 8 years to build. It is 283 meters long. Also, this bridge is very famous in England.

### -Buckingham Palace

Queen Victoria was the first of the royal family to reside in the palace and since then the palace has server as the official residence of the Britain Kings and Queens.

### -Hyde Park

There are entertainment venues in the park, swimming in the lake, boating, bicycle tours, skating, educational shows, restaurants and cafes.

### -London/ Stonehenge

The structure consist of a ring of delinks, each about 4.1 m high, 2.1m wide, and weighing about 25 tons.

## The Most Famous Foods and Drinks:

### -Fish and Chips:

"Fish and Chips" is a hot dish of feed fish covered in slurry, served with French fries.

British tea is a traditional blend of Assam, Ceylan and Kenyan, block teas. Also, English people usually pour some milk into the tea.

## **Economy of England:**

The economy of England is the largest economy of the four countries of the United Kingdom. If England were an independent- sovereign state, its economy would be seventh or eighth largest in the world. Also, it produces 85% of UK's total GDP.

## **The Most Famous Universities in England:**

The education of England is loved by students in England especially the University in Cambridge and the university in Oxford.

### **-Cambridge University (University of Cambridge):**

The university was established in 1209. There are 21,645 students here. Cambridge University is a public research university located in UK. Also, it is the fourth oldest university in the world.

### **-Oxford University (University of Oxford):**

Oxford university is a university located in Oxford; United Kingdom, England. It has 23,975 students. Also, the date of foundation is unknown but has been training since 1096. So, Oxford is older than Cambridge.

## **Invention of Bungee Jumping:**

Bungee jumping was born in 1979 when some Oxford University Dangerous Sports Club members jumped from Clifton Bridge with rope. And then, it becomes famous around the world.

## MY HOLIDAY PLAN

Hi Bella,

How are you? I've got the details about my holiday in Paris.

On 1st day, I will fly from Istanbul to Paris. I will arrive in Paris at 12 am. First, I will visit Eiffel Tower. Then, I will stay in the Hotel de Londres Eiffel. In the evening, I will eat in a restaurant in the city.

On the 2nd day, in the afternoon we will visit the Towers of Notre-Dame Cathedral and Louvre Museum. Then, I will eat croissants for snacks. In the evening, I will eat my dinner in a restaurant in the city. Finally, I will return to the hotel.

On the 3rd day, In the afternoon I will go to see Triumphal Arch. Then, I will visit Domaine National du Palais Royal. I will fly from Paris to Istanbul and I will arrive in Istanbul at 7 pm.

So what's your vacation plan? Would you tell me? I'll be writing for your message.

Best wishes,  
Zeynep Sude

## ***COLOR BLINDNESS***

Color blindness (or more accurately, the lack of color vision) is an inherited condition that affects men more often than women. Red-green color deficiency is the most common form of color blindness. Much more rarely, a person may have a defect that reduces their ability to see blue and yellow hues.

There are different degrees of color blindness. Some people with mild color deficiencies can see colors normally in good light but have difficulty in dim light. Others can't distinguish certain colors in any light. The most severe form of color blindness, in which everything is seen in shades of gray, is uncommon. Color blindness usually affects both eyes equally and remains stable throughout life.

Color blindness is usually something that you have from birth but you can also get it later in life. Change in color vision can signify a more serious condition. Anyone who experiences a significant change in color perception should see an ophthalmologist.

*Beyza Kocataş*

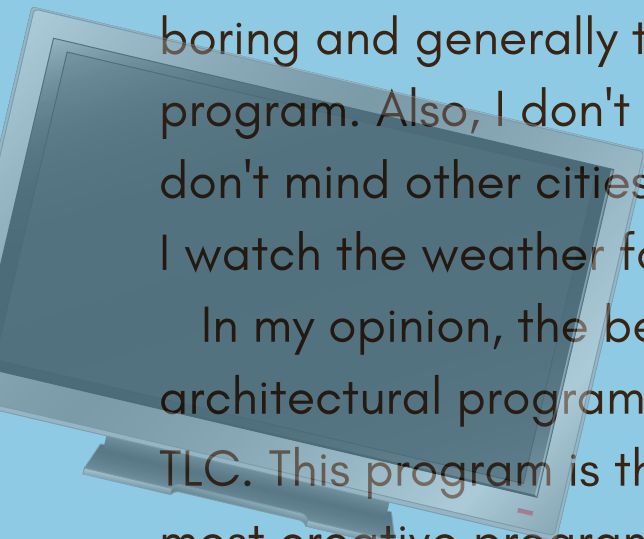

# TV PROGRAMMES

I don't have much time for TV. I spend watching television about an hour a day. Because I don't like watching television. Also, they don't have benefits for me. I watch only some programs which I like.

I enjoy architectural programs. Also, I enjoy talk shows. Because I am interested in architecture and I think talk shows are funny. But my favorites are architectural programs. Because it is more suitable for me. And I think these programs are popular because such programs are different and more creative than the other programs.

I don't like soap operas at all. Because they are so boring and generally teenagers don't like this kind of program. Also, I don't like weather forecasts because I don't mind other cities' or other countries' weather. When I watch the weather forecast, I watch only where I live.

In my opinion, the best programs on television are architectural programs. For example, Hidden Potential on TLC. This program is the best for me because it is the most creative program of all. Also, there is a woman in the program and when she makes the people happy, she makes me happy. That's why it is my favorite.

Ebrar Yılmaz

# FILM REVIEW

I watched Harry Potter and Deathly Hallows. The most important thing in this Harry Potter movie is that Harry Potter found the Horcruxes. It was his duty, Dumbledore told him that. If he can fulfill this mission Voldemort would be disappear. That's why it was so important for him. Hermione and Ron helped to Harry for this duty because it was so hard and Harry couldn't do this when he was alone.

This movie is about the last book of Harry Potter serie and was shot in 2 episodes so Harry Potter serie consists 7 books and 8 movies. The movie completed 12 June 2010. The first part of movie is released on 17 November 2010. The second part is released on 13 July 2011 (in Turkey). The director of this movie is David Yates. There are three main characters in this movie. Their names are Hermione Granger, Ron Weasley and Harry Potter. The most prominent character is Harry. I will write about the features of the characters. First; Hermione is the most intelligent and hardworking of them. She knows many spells so Ron and Harry always need her. Second; Ron is a funny person and infact Ron is an imprisoned character but if he cares he can do anything. Finally; Harry Potter. Avada Kedavra is the only survivor of his curse. So, he is the lead character and he is the most important person in this serie. I recommend this movie to my classmates because it's so exciting. Besides, this movie also tells us the importance of friendship.

Nuriye Köse

# BOOK REVIEW

I am going to talk about a Brief History of Time. I read this book in Turkish but this book was actually written in English. As the title of it says, this book is about time. I like reading informative books. I do not like reading story books. And I want to recommend an informative book.

The author is Stephen Hawking. I want to talk about Stephen Hawking's life. I think you know this man or heard his name. British cosmologist Stephen William Hawking was born in England on 8 January, 1942. He attended University college, Oxford, where he studied physics, despite his father's urging to focus on medicine. At the age of 21, he was diagnosed with ALS disease. There is a dialogue on this subject in the movie that tells about Hawking's life. At this dialogue the doctor said his illness and Hawking said that something would happen to his brain. He did very important things in his life.

*Stephen Hawking*  
→

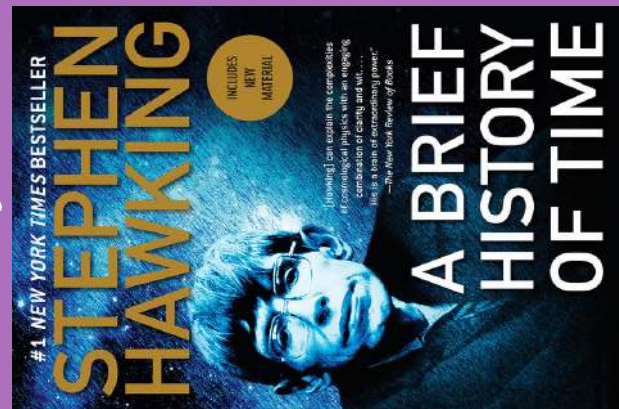

As I told this book is actually written in English. This is the original book's look. When I learn English very well, I want to buy and read it in English.

It actually does not have any genre. It has just information about history of time. The genre is maybe informative or encyclopedia. When I read this book, I feel like I learn new information and I feel so good. This book broadens my imagination. I rate it a score of 4 out of 5 because some parts of the book were difficult to understand and not clear.

Why I recommend it? I recommend it because it is helpful to improve yourself and to spend good time and to learn useful information. I actually watched a series about time and time travelling. And I wondered if it is possible and searched and I found this book. I was so impressed. I believe in time travelling. I think it is possible. We can do this.

*Why I recommend it?*  
→

# FLIGHT 1549

Friday, January 15th

Yesterday was a day that I will never forget. I really cannot believe what happened.

First, after the control process was completed, I headed for the plane. I was going to North Carolina to visit my grandparents and to take some pictures. I sat on my seat and I turned off my phone. Everything was okay. But, three minutes later, I saw a flock of birds and then, they hit the plane's engines. The left engine was on fire and stopped working. Then, the second engine also stopped. I did not feel anything just I thought about death. Crew members were saying something, but everybody was shocked, and they were screaming and crying. The airplane was landed by our best pilot on the Hudson River. We waited on the wings to be rescued. At that time, everyone was saying Sullenberger is the best pilot in the world. I think so, because nobody died. I hope, I will not experience such an event again.

# My Holiday Plan

Dear Emma,

How are you? I have got all the details about our holiday to Japan for 3 days. I want to tell you about everything. We will fly from London to Tokyo on 13th July, Monday. The time is 6 am. The flight from London to Tokyo takes about 12 hours so we will arrive in Tokyo at 6 pm. We will go to Kimpton Shinjuku Tokyo hotel. It is a very nice hotel and we will eat our dinner there. Then, we will go to our rooms.

On Tuesday, we will have our breakfast at 9 am in the hotel restaurant. Then, we will go to Tokyo Imperial Palace. It is a very big historical place. After that, we will have our lunch in a restaurant that is serving Ramen. Ramen is a very famous Japanese food. I didn't eat it before but I think it is very delicious. After lunch, we will go to Tokyo international museum. It is a very big famous museum and you like museums so I think it will be cool for you. We will leave the museum at 6 pm. and will arrive at the hotel at 7 pm. After that, we can eat our dinner and we can eat a very delicious ice-cream in Kakigori.

On the last day, Wednesday, we will have our breakfast at the same time as we had on Tuesday. Then, we will take our suitcases and go to Hamirikio gardens. As I heard, they are very beautiful. After that, we will fly to London again at 2 pm and we will arrive in London at 2 am. And our holiday will end there!

I hope we will enjoy this holiday!

See you,  
Sara

# OLD ISTANBUL AND NOWADAYS ISTANBUL

There are many differences between old Istanbul and new Istanbul.

In old Istanbul, there was not big and brightly coloured houses. Neighbours were talking face to face from windows. Everyone knew their neighbours and communication was so important for them. There weren't many cars on the roads. Weddings and ceremonies were very crowded. Children were playing in the streets. During Ramadan, there were a lot of festivals and activities. Television and pictures were black-white.

In the present-day of Istanbul, there are multi-storey, very tall houses. The neighbours don't know each other. Also, some young people don't respect to some old people. During Ramadan, there are not a lot of activities or festivals. There aren't a lot of trees. During Ramadan, our elders say "Where are those old Ramadans?". So, we can say they miss the old Ramadan times a lot.

There are many industries in the day of Istanbul and the gases comes out of from different industries causes air pollution. Exhaust gases in cars also cause air pollution. They, cause environmental pollution but old Istanbul also had little environmental and air pollution. Because there was not much industrialization. In the old Istanbul, transportation was taking days but now it takes minutes thanks to technology.

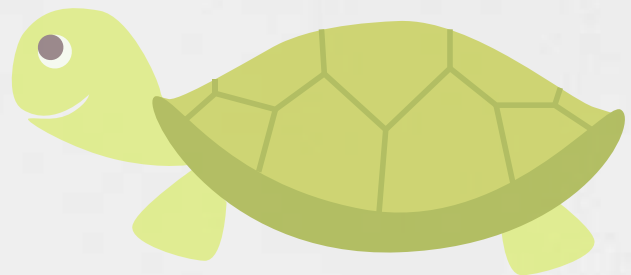

## 915 COINS CAME OUT OF THE TORTOISE'S STOMACH!

It was stated that the female green sea turtle named "Bank" operating in the capital city of Bangkok lived in the pool where the locals threw coins for a long time.

It was noted that the coins, with a total weight of 5 kilograms, dangled from the tortoise's stomach like a ball, breaking the abdominal shell and causing the infection that endangered the life of the turtle. 5 surgeons from Chulalongkorn University Faculty of Veterinary Medicine took the coins from the Bank's abdomen under general anesthesia in 4 hours of surgery.

Many Taiwanese believe that throwing a coin into a pond with turtles prolongs life.

# WORDS OF WISDOM

The poorest human in the world is which has nothing except money.

-Arthur Schopenhauer-

The beginning of anger is madness, and the end is regret.

-Thomas Carlyle-

Enthusiasm is more important than intelligence.

-Albert Einstein-

Hope is the dream of the awake man.

-Aristotle-

No truth is more painful than trying to see it.

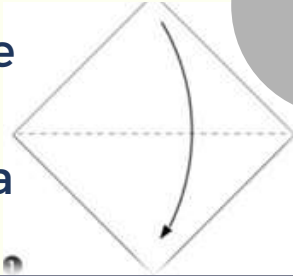

-Goethe-

Young people want to be loyal, they can't, old people want not to be loyal, they can't.

-Oscar Wilde-

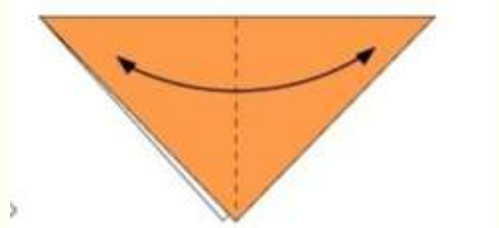

# ORIGAMI DOG MAKING

Fold the square paper in your hand so that the coloured part is out so that it is a triangle.

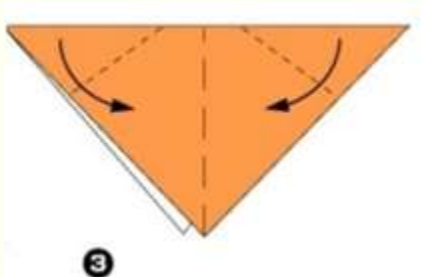

**STEP 1**

This time fold the paper into a smaller triangle and unfold it back.

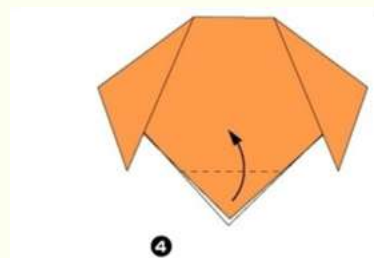

**STEP 2**

Fold the triangle at its two corners so that it becomes a right triangle.

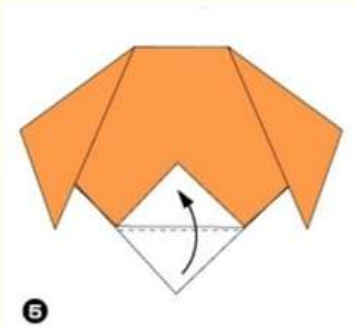

**STEP 3**

Fold the top fold of the remaining corner first.

**STEP 4**

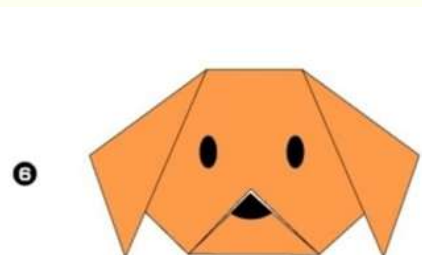

Then fold the lower part of the corner too.

**STEP 5**

Finally, draw your dog's eyes and nose, and then your paper dog is ready.

**STEP 6**

# Interesting Facts About Space

1-Space is completely silent. There is no atmosphere in space. Astronauts use radios to stay in communication.

2-The hottest planet in our solar system is Venus. Venus is the hottest planet in the solar system. Interestingly, Venus is not the closest planet to the Sun-Mercury is closer but because Mercury has no atmosphere to regulate temperature it has a very large temperature fluctuation.

3- There may be life on Mars.

4-A full NASA space suit costs \$12,000,000.

5-There may be a planet made out of diamonds.

6-The footprints on the Moon will be there for 100 million years.

7-One day on Venus is longer than one year. 89- In 0.75 billion years the Milky Way and Andromeda galaxies will collide.

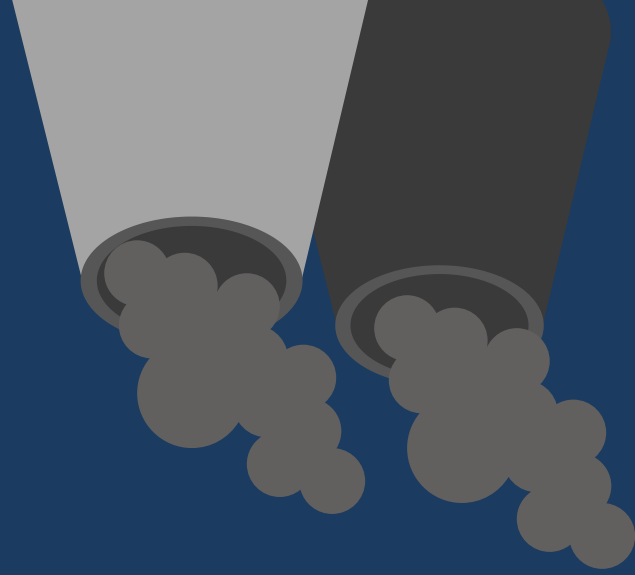

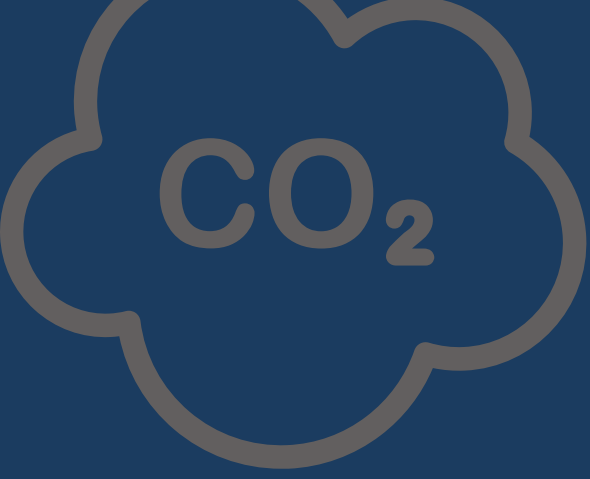

8-If two pieces of the same type of metal touch in space they will permanently bond.

9-There is floating water in space.

10-The Moon was once a piece of the Earth.

11-The Sun's mass takes up 99.86% of the solar system.

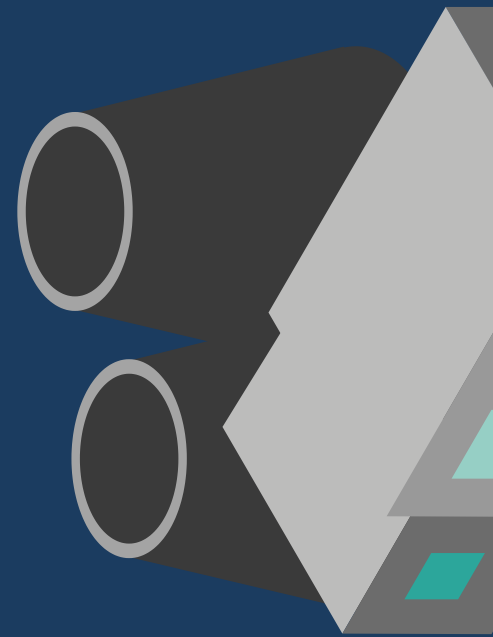

12-There is a volcano on Mars three times the size of Everest.

# AIR POLLUTION

## WHAT IS AIR POLLUTION?

Air pollution is the presence of foreign substances in the air in the atmosphere for a long time in an amount and density that will harm human and living life.

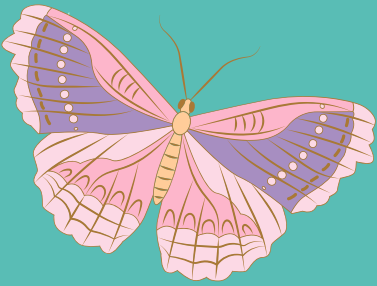

## THE CONSEQUENCES OF AIR POLLUTION:

Air pollution can cause respiratory diseases (pneumonia, sinusitis, pharyngitis, etc.) in humans. Furthermore, the amount of carbon dioxide in the atmosphere increases due to air pollution, and this causes global warming.

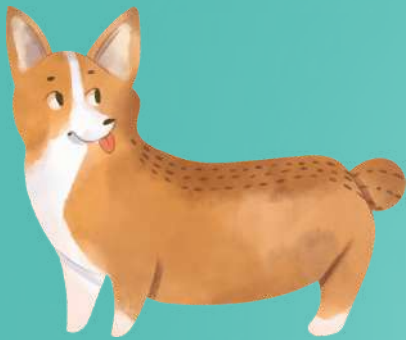

# Interesting Facts About Animals

Butterflies have their sense of taste in their feet, not in their mouths like other living things.

Squirrels bury acorns under the ground, but they forget where they bury them each time. That's why thousands of trees grow every year thanks to squirrels.

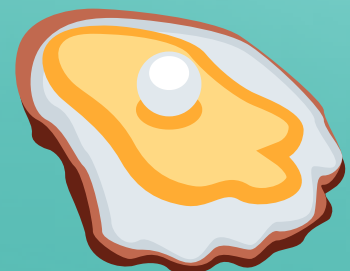

Dogs' nose prints are unique, just like human fingerprints, so dogs can recognize each other.

Otters hold hands while sleeping so as not to get lost.

Turritopsis Nutricula Jellyfish are, as far as we know, the only immortal creatures.

Oysters can change their gender according to which gender is more suitable for mating at mating time.

# *Some Hadiths*

*"Every good deed is charity."*

*"Make things easy and do not make them difficult, cheer the people up by conveying glad tidings to them and do not repulse (them)."*

*"Purity is half of Iman (faith)."*

*"Food for two persons suffices for three, and food for three persons suffices for four."*

# FAMOUS SENTENCES OF OUR TEACHERS

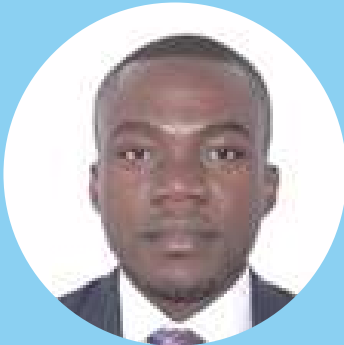

Fikriye Usul

: Volunteers! WOW Everyone is volunteer?

Mehmet Yağcı

: Girlsssss!

Kennedy Amphonsoah  
YEBOAH

: You are my favourite class! Helloo?

Good job! I'm gonna kill you!

Sara Molhem

: Turn on your cameras girlssss!

Mehtap Canan  
Özen

Yılmaz Bulut

: No Turkish! Girls give reaction!

Şerife Yıldırım  
Saygın

: Ladies! Let's start!

Elif Kılıç

: Girls did you memorize this dialogue?

: Let's warm! Do you want any special music?!

Özlem Saraç

Salih Zeki Kolbasar

: Look at my mouth, don't look at my nose. When I say "my beautiful", I am talking about myself.

# Characteristics of The Class

Elif Būşra Kaçar: One of The Quietest

Ayşe Zehra Yıldız: BTS Fan

Dilara Demirel: Space Keen

Esmā Alp: KPOP Fan

Fatma Zehra Çakır: Keep up with Her Arabic Homework

Nisanur Koç: Likes to Listen to Music

Rumeysa Kara: The Person Who Humor in The Classroom

Mükerrem Gül Nemli: Invisible

Serra Çepni: Baby Sitter

Yüsra Nur Saraçoğlu: Class Joy

Sümeyye Ağaryılmaz: Smiles the Most

Fatma Betül Celep: Invisible

Ayşe İpek Koşar: Agatha Christie Fan

Ebrar Akçal: The Most Curious

Zeynep Sude Er: One of The Quietest

Beyza Kocataş: Likes to Listen to Music

Ebrar Yılmaz: Linker Girl

Nuriye Köse: Bookworm

Hayrunisa Bozkurt: With Sticker Suitable for All

Kevser Sultan Deniz: The Most Courageous

Sara Almısrı: Artist

İrem Sultan Yılmaz: Question Cube

Azra Kansız: The Calmest

# EBRAR'S HOT CHOCOLATE COFFEE RECIPE

Hello! My name is Ebrar Akçal and I have a coffee recipe for you. You don't have to pay any money for this coffee. Also, If you don't like drinking coffee, you will love it with this recipe. Let's take a look!

## Ingredients:

- 1 teaspoon instant coffee
- 1 glass of water milk
- 1.5 dessert spoons of chocolate
- For the above;
- Chocolate sauce

1

First, we boil a glass of milk

5

And we add the chocolate-milk mixture on it.

2

Then we melt a spoonful of chocolate with bain marie method

6

Then we froth some milk and put it on the coffee.

3

We mix melted chocolate and boiled milk.

7

Finally we put some chocolate sauce on it

4

Then we put a teaspoon of instant coffee in our glass.

8

And our coffee is ready.  
Bon Appetit

# RIDDLE

What is full of holes but still holds water?  
-A sponge

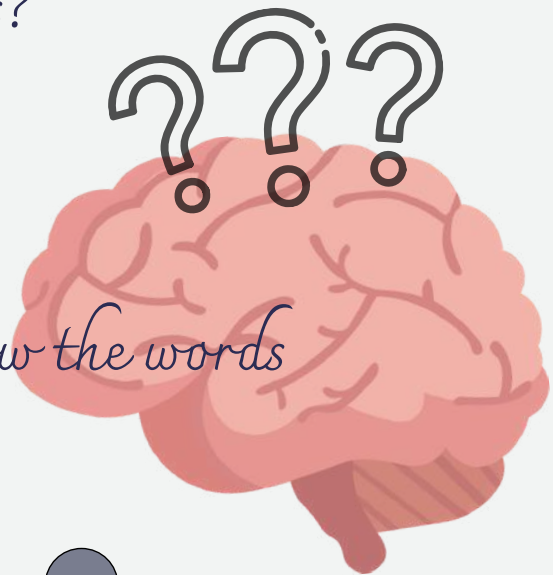

What is always in front of you but can't be seen?  
-The future

Where does today come before yesterday?  
-The dictionary

What has to be broken before you can use it?  
-An egg

Which month has 28 days?  
-All of them, of course.

Why do bees hum?  
-Because they do not know the words

# DRAWING

## STEP BY STEP

Was there a time that you really wanted to draw a character but you couldn't? Well, if there was, then you are in the best place because today I will teach you how to draw a character step by step. Read the instructions carefully :) !!

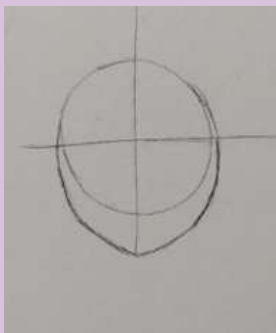

First of all, draw a circle. Any circle with any size. Try to draw it without using any other materials such as a ruler or a cup. It will be the basis of the head.

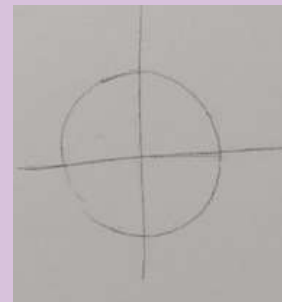

**STEP**  
**1**

Secondly, draw a "plus" in the middle of the circle as in the picture. It will be better to draw it without using any other materials. This step is important to draw the details equally.

After that, start drawing the details. Start with the chin. Then, draw the other details such as the eyes, the mouth, the nose, the ears, etc. Use your imagination to create and draw them.

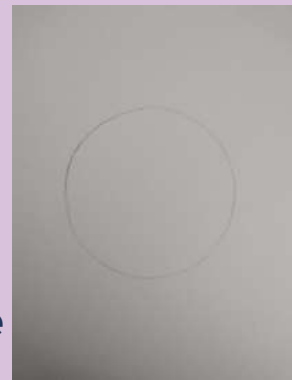

**STEP**  
**2**

**STEP**  
**3**

Now, let's follow the same steps to draw a character. We will be drawing Gojo Satoru from the anime Jujutsu Kaisen. Draw a circle.

**STEP**  
**4**

Draw the “plus”  
(according to  
the angle of the  
head, change  
the place of the  
“plus”)

**STEP  
5**

Add some extra lines or  
some shadows to finish it.

**STEP  
6**

Add the details.

**STEP  
7**

#### TAKE NOTES:

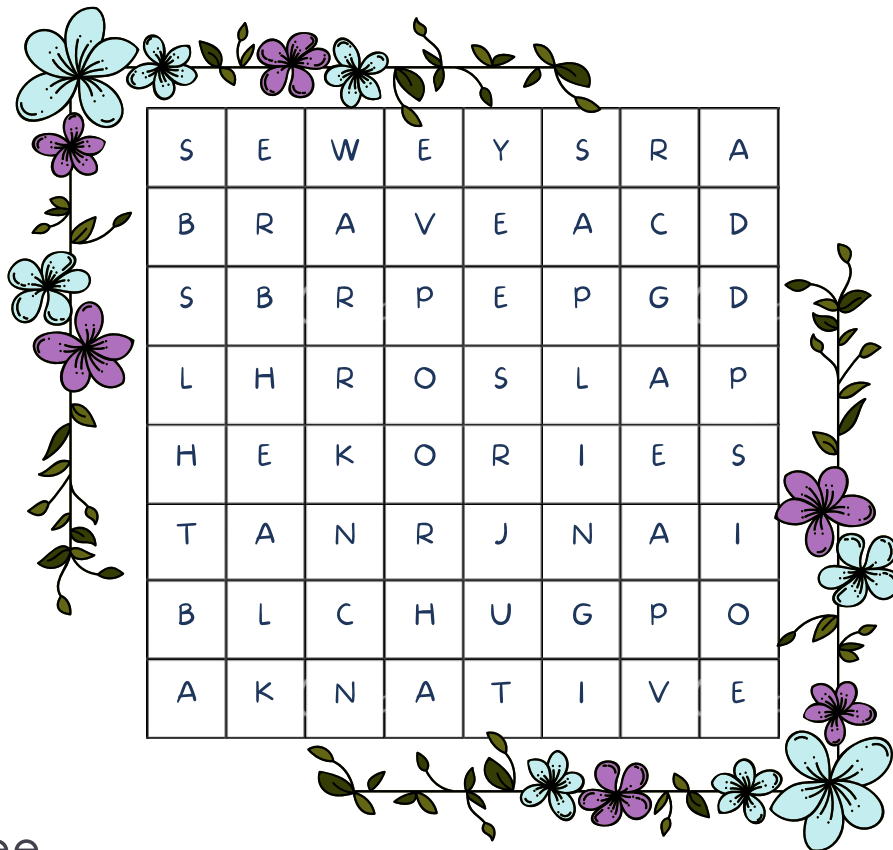

- ~ I recommend you to use a 120 gr page to draw on.
- ~ Use many types of pencils (HB, 2B, 2H, etc.)
- ~ Try to create your own way to draw. The steps above were mine but you can also create your own steps 😊
- ~ BE CREATIVE! Don't forget that drawing is a kind of art and it is ok to do some mistakes.
- ~ Practicing every day would be helpful.
- ~ It is ok to use some materials (ruler, a cup, etc.) at first. You will be able not to use them when you get to it.
